Sudhanshu Tiwari

Data Science@Internshala | Data Analytics | Python | SQL | ML |
ECE '24
Gurugram, Haryana, India

Summary

Hello! I am a data professional passionate about technologies such as data science, analytics, MLOps, and robotics. With a strong foundation and experience in Python, SQL, Power BI, and machine learning, I am constantly helping businesses with their data analytics problems.

Outside of my technical interests, I enjoy writing about machine learning, data science, coding, life lessons, and memes to keep you all entertained.

Looking for opportunities in DA/DS/MLE roles. Let's connect and explore how we can create a brighter future together.

Experience

Internshala

1 year 1 month

Associate Data Science

July 2024 - Present (7 months)

Data Science Intern

January 2024 - June 2024 (6 months)

Gurugram, Haryana, India

Microsoft

1 year 6 months

Beta Microsoft Learn Student Ambassador

September 2023 - September 2024 (1 year 1 month)

Learn Student Ambassadors are a global group of campus leaders who are eager to help fellow students, create robust tech communities, and develop technical and career skills for the future.

Alpha Microsoft Learn Student Ambassador

April 2023 - September 2023 (6 months)

Alpha Learn Student Ambassadors are essentially a global group of campus leaders who have successfully completed one or more of the Learning Paths from the Microsoft Learn platform.

Innovations@EC

Co-founder & Head of Operations

August 2022 - December 2023 (1 year 5 months)

As a Co-founder and Head of Operations at Innovations@EC, electronics club at UIT RGPV Bhopal, I played a key role in establishing a dynamic community within the Electronics and Communication Department. Committed to providing practical knowledge and hands-on experience, Innovations@EC fosters an inclusive environment where members can enhance their skills through engaging workshops led by experienced mentors.

AICTE

AI Intern

May 2023 - September 2023 (5 months)

- Worked on analog and digital signal processing, image processing, filtering, and data analysis using MATLAB.
- Experimented with deep learning and Google's DeepNet using practical data to understand the workings of neural networks in MATLAB

Google Developer Student Clubs - UIT RGPV

Co-ordinating Member

September 2021 - September 2022 (1 year 1 month)

TDPVista

Intern

June 2021 - September 2022 (1 year 4 months)

Giga Biters Club

Member

August 2021 - August 2022 (1 year 1 month)

Shutpix

Script Writer

December 2021 - April 2022 (5 months)

Education

University Institute of Technology, RGPV

Bachelor of Technology - BTech, Electronics and Communications
Engineering · (October 2020 - May 2024)

Saraswati Higher Secondary School Krishnanagar Satna

Higher Secondary Examination , Science (Maths) · (March 2019)
